BONDING & MOULDING SHOP
EQUIPMENT & SUPPLIES

For companies expanding or starting a moulding shop, we can supply either ex-stock or at short notice the following essential items:-

(1). Vacuum pumps with 0.25 - 10 h.p. motors, popular types such as:-

Genevac
Edwards
Gast
Becker
Rietschle

(2). Vacuum tables, gauges, connectors & automated vacuum systems.
Temperature controllers, heater mats & thermocouples.

(3). Autoclaves (90 - 200 p.s.i.), minimum 5' Ø, up to 30' long, plain or fully instrumented; with either live steam, steam coil, electrical or oil heated ovens.

(4). Upstroking presses: various platen sizes up to 7' x 15', pressures from 20 - 1500 tons.

(5). Pre-treatment & effluent tanks: lead & plastic lined according to requirements with necessary pumps & disposal arrangements.

(6). Vacuum blasting equipment: various cabinet sizes or portable models.

(7). Heating systems, including: mats (rubber), blowers, etc.

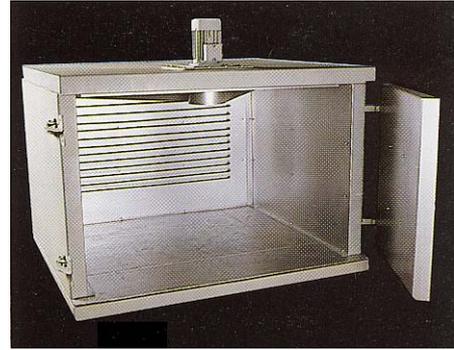

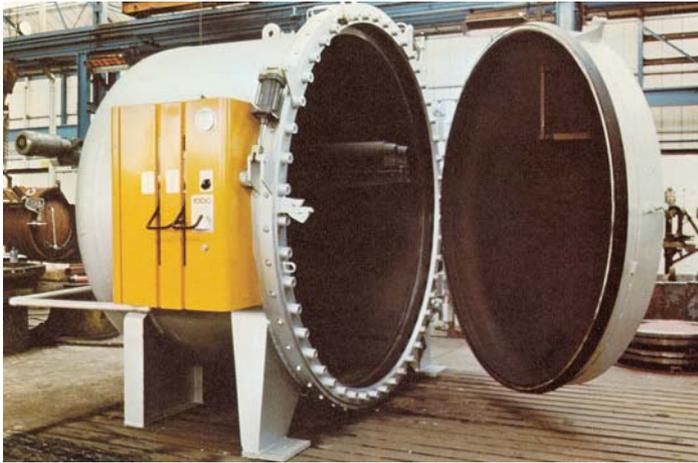

This equipment can be supplied: new, second hand or reconstructed, according to your wishes & financial constraints.

The illustrations overleaf show typical plant & installations.
