PEEL PLY / BLEED  
FABRICS

These are generally a woven polyamide 6 or polyester fabrics with a satin or plain weave. They can be used either on their own, to give a non-contaminant release/bleed barrier or they may be treated with our Dry Film Release Type 450 Series (modified PTFE based) to lower release forces required. These fabrics are available in a variety of colours, 2 oz (55 gsm) & 4 oz (110 gsm) weights; roll sizes 1.5 metres wide x 50, 100, 150 & 200 metres long.

Uncoated Grades (coated types available on request):-

**NYLON GRADES:**
